

# Beginner's Luck

## Ella Fitzgerald, Nelson Riddle Orchestra

All my life I had this funny little feeling  
It came and went time and again with all my daily demons  
Call it a deficit, an emptiness inside  
Why is true love hard to find? Why does true love hide? But now I found you and I know that we will be  
So very happy, if you could only see  
That I was made for you and you were made for me The road in front of us is long and it is wide  
We've got beginner's luck, we've got it on our side  
If you are willing, well, I think I'm qualified  
And with beginner's luck we've gotta take the ride I've got a plan, you know, I've got it all worked out  
And all you've got to do is pack your bags and check your doubts  
You come around and you will see just what I am  
A true love through the worst of times, a true love til the end So now you've found me and you only gotta see  
How complementary we can really be  
'Cause I was made for you and you were made for me The road in front of us is long and it is wide  
We've got beginner's luck, we've got it on our side  
We will be stronger if our forces are allied  
And with beginner's luck we've gotta take the ride We'll take the ride as far as anyone can go  
We'll brave it all, yeah, hand-in-hand and toe-to-toe  
I've got it all worked out, don't worry 'bout a thing  
Just give your hand to me and here, put on this ring The road in front of us is long and it is wide  
We've got beginner's luck, we've got it on our side  
If you are willing, well, I think I'm qualified  
And with beginner's luck we've gotta take the ride
