

I Don't Give A Damn

Z-ro

Verse 1.

I need Christ , thats the only thing I know . I really cant breathe right, im strangled by animosity from my own people. Lately its hard to be nice, my face is frowned up everywhere I go. And I cant sleep nights, im in my ride tryna to find my foe . Why you be tripping Zro?

Verse 2.

They say my music wont make it, cuz I dont rap, cars and dancin. I rap pain, poverty, and fraud romancing. Who gon represent for the brother on death row, and let him know whether he didn't or not, God had his back from the get-go? Or lil mama thats hustlin, riskin her freedom, house full of kids, not one of the baby daddy around, she's just tryin to feed them. Even if shes layin on her back for bread, instead of talkin about her, show her how to earn it without openin legs. Why my people rather point fingers and turn up they nose, and showing love and strikin up a match. Aint that so explosive? And im guilty just like everybody else, when im talkin to yall, im talkin to self. I know you tired of showin love but never gettin it shown back to ya, when all you need is a hug, your people show their back to ya. Believe me when I tell you, every time the world and the devil diss you, God is your homey, cant nobody in the world fuck with ya!

Chorus.

If you feel like you wanna die sometimes, you can relieve stress to this. Just keep God first in your life, even when it feels like, He aint blessin it. If you get mad, like I get mad, then you be agged, like everyday. But all you gotta do is, learn to let go and let God handle it. And then you can say , I Dont Give a Damn. But all these fellas droppin salt on you mayne. I Dont Give a Damn, but you cant pay your bills, cus you short on your change. I Dont Give a Damn, man I just saw your woman huggin and kissin another man. I Dont Give a Damn, cus God got me, and if you dont know, you better ask somebody.

Verse 3.

8 hundred days, minimum wage, bout to lose your house if you dont get a raise. Jus stay close to goin to work with the 12 days. You see a new mullenium, but feels like you in the stone age. Stressin every 7 minutes from living with aids. Subtract the days from your life, but not because of the virus, your dyin from worryin about thangs you cant change. Your mad at satan, its too many other names to blame. Only God can bring forth rain to smother pain flames. And then the sun gon shine, no matter what the doctor tell you, the Lord decides, when its the end of your time. Jus look at Magic, yeah it was tragic, but he still at it. Lookin , functionin and feelin fantastic. I know my people cry a river, and its alrite to cry. But dont commit suicide, you cant make it to heaven takin your own life. So repeat after me, "The devil aint pimpin me, cus I can do all things through Jesus Christ who strengthens me. "
