The Devil Inside

The Word Alive

This is what we get.
You took life for granted,
Nothing last forever,
Step back and make it betterStay awake I feel too lonely
Please don't fall asleep
Take this dose of realityThis is how it ends
Passed all my hate and sins,
We all have the devil hidden deep inside
Take a trip into my mind.Oh my god she's just a little girl
Now she's just a little...
Oh my god she's just a little girl
She's just a little...girlStay awake I feel too lonely
Please don't fall asleep
Take this dose of realityCause this time we'll last forever
This time will be much better
I know we're not looking back againThis is how it ends for taking life for granted
We all have the devil hidden deep inside
Take a trip into my mind
Daddy's leaving out the back door, not again
Daddy's leaving out the back door, not againStay awake I feel too lonely
Stay awake I feel too lonely
Please don't fall asleep
Take this dose of realityCause this time we'll last forever
This time will be much better
I know we're not looking back againDaddy's leaving out the back door, not again
Oh my god she's just a little girl
Now she's just a little...
Oh my god she's just a little girl
She's just a little...girl.
