Ghost

I started out at the top of your list
And now this? Come on
Its real funny how the thing you used to run to
Becomes the thing that haunts youThe future means the past
I size him up real quick and in a flash
Im the same guy who made you laugh
Now I make you madHes the one you choose
How did I get things so confused?
I thought I had that, I tried to get back
But now I got it bad, yeahI really wanted you
Now the sound of my voice is gonna haunt you
Picked him but I was the one who loved you the most
Instead our love is dead and Im nothing more to you than aGhost, pass right through me
Heartbroken, I know you can see right through me
Im in hell cause heaven was so close
But instead my love is dead and Im nothing more to you than aGhost, Mr. Invisible, so hard to let it go
Im a ghost, he wins, I lose
Baby, Ill be missing you
Im a ghost, Im a ghostAnd I love her even more
But Im stuck on the other side of the door
And she cant hear me, she cant feel me
Same thing like Demi MooreDivided what we had
Add the new man, do the math
Wish I could work it out but its over now
I gave it all I had, all I hadYou know how much I wanted you
Now the sound of my voice is gonna haunt you
You picked him but you knew that I loved you the most
Instead our love is dead and Im nothing more to you than aGhost, pass right through me
Heartbroken, I know you can see right through me
Im in hell cause heaven was so close
But instead my love is dead and Im nothing more to you than aGhost, Mr. Invisible, so hard to let it go
Im a ghost, he wins, I lose

Baby, Ill be missing you
Im a ghost, Im a ghostYou cant just expect me to not wanna be on your list
And you cant just expect me to get over the warmth of your kiss
You cant be serious or furious, he has the woman I love the most
But I cant have, I couldnt have thats all you have when youre a ghostI say, ghostGhost, pass right through me
Heartbroken, I know you can see right through me
Im in hell cause heaven was so close
But instead my love is dead and Im nothing more to you than aGhost, Mr. Invisible, so hard to let it go
Im a ghost, he wins, I lose
Baby, Ill be missing youGhost, pass right through me
Heartbroken, I know you can see right through me
Im in hell cause heaven was so close
But instead my love is dead and Im nothing more to you than aGhost, Mr. Invisible, so hard to let it go
Im a ghost, he wins, I lose
Baby, Ill be missing you
Im a ghost, Im a ghostIm a ghost, Im a ghost
Yeah, yeah, yeah, yeah
