Don't Talk About It

Swan

I was staring at the people
Lost and terrified
Turned and saw you smiling
My heart was terrorized
Lust among the millions
Another suicideWhen I think that love was there
Don't wanna talk about it
Don't wanna talk about itThe pain we share
While they just talk about it
While they just talk about itA hand reached out to touch me
A letter hit the pile
I felt my life revolving
Like fingers in a dial
And I stopped believing
But only for a whileWhen I think that love was there
Don't wanna talk about it
Don't wanna talk about itThe pain we share
While they just talk about it
While they just talk about itDon't wanna talk about it
Don't wanna talk about itDon't give it up
Don't count on their loving
Don't give it up, don't try
Don't give it up
Don't count on their loving
Don't give it up, don't tryDon't wanna talk about it
Don't wanna talk about itWhen I think that love was there
Don't wanna talk about it
Don't wanna talk about itThe pain we share
While they just talk about it
While they just talk about itI was staring at the people
Lost and terrified
Turned and saw you crying
A victim of your pride
But you are no civilian
So open up your eyesWhen I think that love was there
Don't wanna talk about it
Don't wanna talk about itThe pain we share
While they just talk about it
While they just talk about itLove was there

Don't wanna talk about it
Don't wanna talk about itThe pain we share
While they just talk about it
While they just talk about itLove
