

# Stop Me

## Natalia Kills

Advisory - the following lyrics contain explicit language:

Father Father  
What have you done done done done?  
You've made a monster  
And now I gotta run run run run...Darling darling  
You know I never meant to drag you down,  
Standing at the bar  
With your scars and your lonely heart,  
So let's leave this dead end town If I, if I  
Run away with you tonight, tonight  
We could make the wrongs feel right, so right  
We could do some damage,  
Fuck me in the Paris lights...I put my high heels on so I'm closer to God  
I put my high heels on so I'm closer to God  
Tonight we're gonna dance to the devil's drum  
And I need someone, need someone To stop me, stop me  
Stop me, stop me  
Stop me, stop me  
You can't stop me, stop me  
Stop me Baby baby  
I never looked so gorgeous on your arm  
Wearing last night's dress like a hot hot mess  
All our money's gone gone gone  
And maybe maybe  
We're gonna be rich like them someday  
Let my lost girl eyes and your guilty mind  
Wash clean with the free champagne If I, if I  
Run away with you tonight, tonight  
We could make the wrongs feel right, so right  
We could do some damage,  
Fuck me in the Paris lights...I put my high heels on so I'm closer to God  
I put my high heels on so I'm closer to God  
Tonight we're gonna dance to the devil's drum

And I need someone, need someone To stop me, stop me  
Stop me, stop me  
Stop me, stop me  
You can't stop me, stop me  
Stop me When the night is young  
And we look 25 but we're sweet 16  
Can I be the one to turn your nightmare into a dream?  
When the night is young  
And we look 25 but we're sweet 16  
Can I be the one to turn your nightmare into a dream? I put my high heels on so I'm closer to God  
I put my high heels on so I'm closer to God  
Tonight we dance to the devils drum  
And I need someone, need someone To stop me, stop me  
Stop me, stop me  
Stop me, stop me  
You can't stop me, stop me  
Stop me
