How About That

Gisli

Oh, and a lot of princesses used to be sluts
A lot of overweight bankers used to be studs
Oh, and a lot of evil lawyers used to be really cool

How â€˜bout that, yeah
How â€˜bout that, yeah

Oh, and a lot of stock brokers used to be broke
A lot of really straight people used to do coke
Oh, and a lot of hip-hoppers used to like rock and roll

But as a matter of fact
We're all doing fine
And I'll just sit and relax
While you're all changing your minds
And I'll be over here
So just leave me the fuck alone

How â€˜bout that, yeah

Oh, and some heroin junkies used to work out
A lot of really certain people used to have doubt
A lot of heterosexuals used to go down for cash

But as a matter of fact
We're all doing fine
And I'll just sit and relax
While you're changing your mind
And I'll be over there
So just leave me the fuck alone

How â€˜bout that, yeah
How â€˜bout that, yeah, yeah
How â€˜bout that, yeah
How â€˜bout that

And as a matter of fact
We're all doing fine
And I'll just sit and relax
While you're changing your minds

And I'll be over there
So just leave me the fuck alone

So how â€˜bout that, yeah
