

Let's Get Started

Dylan Gardner

I'll be John and you'll be Yoko
Sit back and watch our love grow
I'll be winter, you'll be summer
I couldn't ask for just another
I'll be Sunday, you'll be Monday
Look into those eyes, my heart beats
Saw you standing, then I thought it
Baby, why don't we get started
Now, come on, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started
You are my love, come on, let's get started
All your problems disregarded
Oh, come on, let's get started
We can say what you want
Not ever give it up
Just say what you want from me
So come on up, now, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started
Let's get started
I'll be quiet, you'll be dangerous
Want to show you just how love is
I'll be singing, you'll be humming
Baby know that we got something
I'll be laughing, you'll be dancing
I guess I'll have to take the chance and
I see you standing, think about it
Baby, what if we got started?
Now, come on, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started
You are my love, come on, let's get started
All your problems disregarded
Oh, come on, let's get started
We can say what you want
Not ever give it up
Just say what you want from me
So come on up, now, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started
Let's get started
Now, come on, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started

You are my love, come on, let's get started
All your problems disregarded
Oh, come on, let's get started We can say what you want
Not ever give it up
Just say what you want from me
So come on up, now, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started Say..
Ever..
Say what you want from me
So come on up, now, let's get started
Just don't leave me broken-hearted
Oh, come on, let's get started
