

# Strike

## Apartment 26

The situation is critical  
Evacuate, alarm, strapped down and still  
Flicked switched will detonate  
Causing me no harm 'til I'm cut to size  
I call to memory  
Times I hold you down like that  
Does anyone believe it's me  
That I'm trying to rescue?  
There's something like a void I feel  
And I'm dying to tell you  
The situation is critical  
Evacuate, alarm, strapped down and still  
Flicked switched will detonate  
Causing me no harm 'til I'm cut to size  
I call to memory  
Times I hold you open  
Does anyone believe it's me  
That I'm trying to rescue?  
There's something like a void I feel  
And I'm dying to tell you  
It's causing us no harm  
So hold me open, calm me down like that
