Strike

Apartment 26

The situation is critical Evacuate, alarm, strapped down and still Flicked switched will detonate Causing me no harm 'til I'm cut to size I call to memory Times I hold you down like that Does anyone believe it's me That I'm trying to rescue? There's something like a void I feel And I'm dying to tell you The situation is critical Evacuate, alarm, strapped down and still Flicked switched will detonate Causing me no harm 'til I'm cut to size I call to memory Times I hold you open Does anyone believe it's me That I'm trying to rescue? There's something like a void I feel And I'm dying to tell you It's causing us no harm So hold me open, calm me down like that
