

Good Enough for Granddad

Squirrel Nut Zippers

If it's good enough for granddad
It's good enough for me
The way it was that's the way it's got to be Told me all about the good times that he had
Even when the times were sad
What's good enough for grandad? Been to all kinds of places
Been to every old foreign land
Ain't a man alive shuck and jive
Better than granddad can All the good times that he had
They were good enough for granddad
They're good enough for me Been to all kinds of places
Been to every old foreign land
Ain't a man alive shuck and jive
Better than granddad can All the good times that he had
Even when the times were sad
What's good enough for grandad? Yes yeah All the good times that he had
If they were good enough for granddad
They're good enough for me
