Shovel

Throttlerod

Hearts bend ?cause they can?t break
When they can?t take
All that is given to them
Glass eyes on your sad face
It?s a sad story somebody?s written on you
Love in my heart, right from the start
So please take me with you
Birds sing out the window
Sing out the window sing
Do you hear those birds

sing out the window
Sing out the window sing
Take me with your shovel
We?ll burry all your troubles
All your troubles
Oh the light is always on you
Always in the light
The light is always on you
Always on you
Always in the light
