# Freak City

## Polock

While evenings slip away
Hear my sad complaint
I can't get no relief
Show them what you've done to me
I wake up in the scene
And float into the mist
Whatever promises
Leading me astray
The way I handled things
Not like other flings
Couldn't stop wondering
How to float when I can't swim
It starts to get so loud
The music never dies
New faces dance floor lust
City rider chaseOpen for business we're closed
We started years ago
Leading a wild life like animals
Like animalsYou say
What's the time?
Can't see straight head spinning around
Oh you say
What's the time?
Yeah now
You say
What's the time?
You hit me right just where I like
Oh you say
What's the time?
Yeah nowShe knows she's always been
Underneath my skin
I can't get no relief
Show them what you've done to me
I wake up in the scene
And float into the mist
Find you in another place
City rider chaseYou say
What's the time?
You dance is right into the jam

Oh you say
What's the time?
Yeah now
Real
You say
What's the time?
You hit me right just where I like
Oh you say
What's the time?
Yeah nowHit me right just where I like
You hit me right just where I like
Hit me right just where I like
You hit me right just where I likeThe morning comes and I fall
The writing's on the wall
But you won't take my adviceOpen for business we're closed
We started years ago
Leading a wild life like animals
Like animals (X2)
