Shake Your Blood

[Probot](#)

Looking for relief in your miserable life
You need some rock and roll and you better get it right
Got to roll 'em bones do everything they say
If you're cool and you're the fool make it work everyday
Rock it out, do it quick
My, my, my, let it rip
Rock it out out, feeling good
Break your heart and shake your blood
Out upon the stage, crowd is going wild
Love to see them women, babe I ain't in denial
Make crazy too, make you show it out
Looking good, get some wood you should, you knew you could
Rock it out, do it now
My, my, my, show me how
Rock it out, make it good
Break your heart and shake your blood
Want to be a winner, want to be the man
Want to make yourself insane join up with the band
Want to fall in love, want to make your mark
Want to get out in the storm, want to break a thousand hearts
Rock it out, strike it rich
My, my, my, it's a bitch
Rock it out, I knew you could
Break your heart and shake your blood
Rock it out, don't you stop
My, my, my like a rock
Rock it out it's no good
Break your heart and shake your blood
Shake your blood, shake your blood
[Incomprehensible]
