

# Wild Women Do

Natalie Cole

Wild women do  
And they don't regret it  
Woo You tell me you want a woman who's  
As simple as a flower  
Well, if you want me to act like that  
You'd better pay me by the hour Don't want to travel in the danger zone  
Take another number  
Don't want a lover who can hold her own  
Baby, step aside if you don't want to ride  
Because Wild women do and they don't regret it  
Wild women show what they're goin' through  
Wild women do what you think they'll never  
What you only dream about wild women do You think that love is a vision of  
A princess in a picture  
Well, let me tell you something, little boy  
You wouldn't know love if it hit ya Scared of someone who is off the wall  
Kickin' and a screamin'  
Don't you want a lover who can do it all?  
Listen to me, Jack, I ain't holdin' back  
Cos Wild women do and they don't regret it  
Wild women show what they're goin' through  
Wild women do what you think they'll never  
What you only dream about wild women do Come on and wild with me, baby  
Everybody come on  
Everybody get wild Wild women do and they don't regret it  
Wild women show what they're goin' through  
Wild women do what you think they'll never  
What you only dream about wild women do Wild women do and they don't regret it  
Wild women show what they're goin' through  
Wild women do what you think they'll never  
What you only dream about wild women do Wild women do and they don't regret it  
Wild women show what they're goin' through  
Wild women do what you think they'll never  
What you only dream about wild women do
