

# The Past

## Billy Ray Cyrus

Back when I was young  
When I was just a kid  
The foolish things we done  
The secrets that we hid  
Out on our playground  
Where I first touched your lips  
Our first taste of love  
Upon our fingertips  
Now, I go back in time  
To a place they call the past  
Where dreams are make believe  
And love can really last  
Sometimes, it's all so real  
And it's always way too fast  
This crazy world we live in  
The past  
Now, I go back in time  
To a place they call the past  
Where dreams are make believe  
And love can really last  
Sometimes, it's all so real  
And it's always way too fast  
This crazy world we live in  
The past
