

# Better Than Beautiful

**Joe Nichols**

You came along it was perfect timin' for me  
Yeah you dropped right in the puzzle like a missin' piece  
It took me awhile for me to understand  
You were the one I couldn't let slip through my hands

I remember when the lights came on  
A blinding sun came shining on my world  
Baby you're everythin' and more than everything I wanted  
More than I deserve  
Un-thinkable, un-dreamable, un-believable  
Better than beautiful

The only thing that compares to what we have  
Is little mini me, mini you running 'round calling me Dad  
I look at her and see her momma's eyes  
And I've got another reason to thank god I'm alive

I remember when the lights came on  
A blinding sun came shining on my world  
Baby you're everythin' and more than everything I wanted  
More than I deserve  
Un-thinkable, un-dreamable, un-believable  
Better than beautiful

I'm blessed with everything I'll ever need  
I've got sweetest life a man could hope to lead

I remember when the lights came on  
A blinding sun came shining on my world  
Baby you're everythin' and more than everything I wanted  
More than I deserve  
Un-thinkable, un-dreamable, un-believable  
Better than beautiful
