

Back to Earth

Jackie Venson

Dance he said dance like you'll never dance again
Laugh he said laugh like you'll never laugh again
He died a young man but seemed an old man
He saw not the end but a way to begin againSo tell me once tell me twice tell me that I'll never die
When you like won't you please tell me why
When you can't then I'll search for the answers
But I'll get lost and find more to wonderLike why the dead man knows it all
And why I feel alone
And why I try to fly but always fall back to earth[guitar solo]
