

# Love Me Or Don't

Jason Aldean

I ain't gonna lie, girl  
I know sometimes I can be crazy  
But I can see it in your eyes  
I'm the only guy that's driving you wild, so wild  
Call it what you wanna but you know I wanna call you my lady  
All this on and off and on again  
And I wish you would make up your mind  
'Cause it's time And I'm tired of playing these games  
Yeah you say that it's over  
And then you tell me come over  
It's like fire, and then it's like rain  
Yeah we're hot and we're colder  
You get me drunk and then sober  
Tell me it's on if you want it to be  
If you're moving on, then I think you should leave  
I'm tired of playing these games, so I won't  
Baby, love me or don't  
I could keep your little red dress that you left on the floor, girl  
Hang it in the closet 'cause I know you're gonna want it next time, next time  
You can come here and kiss me or walk out the door  
I can hold you for good girl, or not anymore I'm tired of playing these games  
Yeah you say that it's over  
And then you tell me come over  
It's like fire, and then it's like rain  
Yeah we're hot and we're colder  
You get me drunk and then sober  
Tell me it's on if you want it to be  
If you're moving on, then I think you should leave  
I'm tired of playing these games, so I won't  
Baby, love me or don't You can love me if you want to  
You can hate me if you don't  
You can come here and kiss me or walk out the door  
I can hold you for good girl, or not anymore  
'Cause I'm tired of playing these games  
Yeah you say that it's over  
And then you tell me come over  
It's like fire, and then it's like rain  
Yeah we're hot and we're colder  
You get me drunk and then sober

Tell me it's on if you want it to be  
If you're moving on, then I think you should leave  
I'm tired of playing these games, so I won't  
Baby, love me or don't Yeah baby, love me or don't  
Baby, love me or don't
