

# Take Your Time

[DIIV](#)

Take your time, hear em out  
How they went to go about to give it up and find yourself in time  
Take your time, it's all about  
The circle up to circle out what's in your mind,  
then take your time  
Take your time, come about  
Draw your flag and hand it out, then take a look and then hide it deep inside  
Take your time, hear em out  
It works if you work it out, to clean out your mind, and take your time  
Take your time, hear em out  
How they went to go about to give it up and find yourself in time  
Take your time, it's all about  
The circle up to circle out what's in your mind,  
then take your time  
Take your time, come about  
Draw your flag and hand it out, then take a look and then hide it deep inside  
Take your time, hear em out  
It works if you work it out, to clean out your mind, and take your time
