

That's All There Is To This Song

Willie Nelson

(Buddy Cannon)

The night that we met I heard music
The words started coming, so I wrote her a song
She loved every line, that flowed from my mouth
And I sang it to her all night long
It was easy to write about her blue eyes
And her sweet smile and her body
And her smile oh, touchin' me
I made her mine, with just a few lines
And a three quarter time melody

That's all there is to this song
The dream that she was has moved on
All the words to the verses are gone
That's all there is to this song
That's all there is to this song
The dream that she was has moved on
All the words to the verses are gone
And that's all there is to this song
All the words to the verses are gone
And that's all there is to this song
