

Summertime Thing

Chuck Prophet

Well the sun is burning down
on the pavement
Money in the bank
I ain't gonna save it
Jenny's coming by
Hope she makes it
Jenny's coming by
Sure hope she makes it
It's a summertime thing
Summertime thing There's a party next door
sounds like it's cooking
I poked my head over the wall
Took a look in
There was a five piece band
They was really rockin'
Looked like some kind of family reunion
Hey - It's a summertime thing
Summertime thing (repeat 3x) That summer heat has
got me feeling lazy
The air is warm
and the sky is hazy
People getting down
getting crazy
People getting down, getting stupid
getting crazy Hey - It's a summertime thing
Summertime thing (repeat 4x)
