# But Then I Met You

## Family Guy

I used to get awfly moody, when dating a fair-skinned cutie
Cause every red-hot beauty turned out to be bitchy inside
Like something had crawled right up her ass and diedBut then I met you, my troubles were through
I whispered, I do, and promised Id stay in love with you
The day I met you, you know that I knew
Youd be a great screw, thank God I met youWith parents so agitating, my way of retaliating
Was one little rule of dating, give mommy and daddy a fright
I slept with a different black guy every nightBut then I met you, my troubles were through
I whispered, I do, and promised Id stay in love with you
The day I met you, you know that I knew
My world was brand new, thank God I met youKnowing our happiness is always growing
Is all I need to keep me going
Your smile has me deep in a trance
Im all about romanceFreakin show offWe hoped it would last, but could it?
We hoped it would grow, but would it?
I gave you my love and put it
All over your face and your hair
I never imagined I could walk on airBut then I met you, my troubles were through
I whispered, I do, and promised Id stay in love with you
The day I met you, you know that I knew
My world was brand new, thank God I met you
Thank God I met you, thank God I met you
