Our House of Straw

InMemory

This place is just a giant highway
Exchanging names while we play these kissing games
It's safe to say it's hell without you
These crowded rooms could never match your faceThis hotel bed to rests our heads
I shouldn't be sleeping, I'm with her instead
This alcohol will break the ice
While you wait with flooded eyesDon't leave home
There's nothing but starving wolves outside
I beg you take a step back from my door
Oh, it's killing me, killing me
Doesn't it, doesn't it hurt?Honey, these stop signs are suggestions
A mile a minute with my safety belt on hope
Tonight please put your favorite dress on
The streets will burn as you scream out of controlLet's put this city to the test
With two brighter stars and three good lashes dance
Let's give them something to talk aboutDon't leave home
There's nothing but starving wolves outside
I beg you take a step back from my door
Oh, it's killing me, killing me
Don't leave home
There's nothing but starving wolves outside
I beg you take a step back from my door
Oh, it's killing me, killing me
Doesn't it, doesn't it hurt?Oh tell me, oh tell me baby you waited
Your loyal, you love me, you'll never let me go
Tell me, oh tell me baby you waited
Your loyal, you love me, you'll never let me go
Tell me, tell me baby you waited
Your loyal, you love me, you'll never let me go
Tell me, oh tell me baby you waitedDon't leave home
There's nothing but starving wolves outside
I beg you take a step back from my door
Oh, it's killing me, killing me
Don't leave home
There's nothing but starving wolves outside
I beg you take a step back from my door
Oh, it's killing me, killing me
Don't leave home
There's nothing but starving wolves outside

Oh, it's killing me, killing me
Doesn't it, doesn't it hurt?
