Natural Disasters

South

Don't start now that you've recovered
Words slip out when you don't want to
Comment on the situation
Round up then someDo what leads to your destruction
Commit yourself before your actions
Dictate all future affairs
Can't stand the sight of this disrepairDon't think that I'll be here most any day
You give me no reason I find it a strain
(Don't pull me over)
In my own way, I dream we're safeCan't stop natural disasters
To walk on or fall down
It's ours but not in the same way
Our rights failed meFollow or lead by example
I hope we're safeDo what leads to your destruction
Commit yourself before your actions
Dictate all future affairs
Can't stand the sight of this disrepairDon't think that I'll be here most any day
You give me no reason I find it a strain
(Don't pull me over)
In my own way, I dream we're safeI'll start by picking everything apart
Oh this is such a curs
To me you live a total fantasy
I dream we're safe, I dream we're safe
