

This Morning It Was Summer

[Natalie Cole](#)

This morning it was summer
I remember long ago
A skylark on my shoulder
Told me so This morning we were lovers
We were happy and we were gay
But now, love
You are somewhere far away You left me in the sunshine
Now there is rain
Oh, I tried so just to find you
But all my searching was in vain This evening it is winter
Yet my heart sounds this alarm
This morning it was summer
In your arms Yes, I tried so hard to find you
But all my searching was in vain This evening it is winter
Yet my heart sounds this alarm
This morning it was summer
In your arms
Summer in, summer in your arms
