

# You And Me (Benny Maze Remix)

## Serge Devant

Don`t go underground without me,  
Please take me to your world  
In the night I found you,  
Now I walk without youThought I would be safer here  
But all I see is where you were  
Now the night surrounds you,  
And I walk without youWhere are you now?I've waited so long  
With every word I called your name,  
Though I know you`re goneWhere are you now?  
I've waited so long  
With every word I called your name,  
Though I know you`re goneTake me with you
