

Soulmate

Josh Turner

Soulmate, until the end of time youre my soulmate
Ill love you til I get to heavens gate
And if I go first, sweetheart, Ill wait
Cause I know Ill never find another soulmate Your love, theres no tellin where Id be without your love
Stumblin in the dark would be pretty rough
When I get down youre the one that lifts me up
I thank the Lord above for your love In this day and time the right ones hard to find
Girl, thats why Im holdin on to you
Each and every night when we turn out the light
Theres no mistakin what we have is true Soulmate, I hope that we grow old together, soulmate
In the good and bad, even through the heartache
Weve got a special bond thatll never break
Cause, darlin, you and I are soulmates In this day and time the right ones hard to find
Girl, thats why Im holdin on to you
Each and every night when we turn out the light
Theres no mistakin what we have is true Soulmate, until the end of time youre my soulmate
Ill love you til I get to heavens gate
Weve got a special bond thatll never break
Cause, darlin, you and I are soulmates
Yeah, I know Ill never find another soulmate
