Never Destroy Us

The Dears

Whatdya say that we go down together
And try to find out all the answers
Whatdya say that we go down together
And try to find out what we missedI will drop everything you better believe it
'Cause I mean it
And I know we can last if we could forget about the past
And start again, againNever destroy us
Never destroy us
Never destroy us
Never destroy usNever destroy us
Never destroy us
Never destroy us
Never destroy usAgain, start again, start again, start
Again, start again, start again, start
Again, start again, start again, start
Again, start again, start again, startAgain, start again, start again, start
Again, start again, start again, start
Again, start again, start again, start
Again, start again, start
