# One Way Love

## TKA

One way love
Thought we had somethingGirl, I can't get you out of my mind
Just one look, I knew you were one of a kind
Your love is hot, so give me all you got
I need your love, too much is not enoughOne way love, thought we had something
Girl, you played me for a fool
Should have held back all my loving
Didn't know there were no rulesOne way love, now I'm still crying
Tears are pouring like the rain
But I know I'll keep on trying
While you put me through this painYou said our love had passed the test
But then, you left me like all the rest
That night we fought
You knew you had been caught
I knew the plan, you'd found
You'd found another manOne way love, thought we had something
Girl, you played me for a fool
Should have held back all my loving
Didn't know there were no rulesOne way love, now I'm still crying
Tears are pouring like the rain
But I know I'll keep on trying
While you put me through this painNow, it's over you're out of my life
And, I won't make the same mistake twice
You rode my heart, You knew it from the start
You were my world, but I found, I found another girlOne way love, thought we had something
Girl, you played me for a fool
Should have held back all my loving
Didn't know there were no rulesOne way love, now I'm still crying
Tears are pouring like the rain
But I know I'll keep on trying
While you put me through this painOne way love, thought we had something
Girl, you played me for a fool
Should have held back all my loving
Didn't know there were no rulesOne way love, now I'm still crying
Tears are pouring like the rain
