

# The Sky (Shimon Remix)

## Dub Fx

The sky is foreverAs I'm tappin' away upon my key pad

We've had too many cups but not enough tea bags

We sad

That it's all about the me nag

All wiped up with a cheap rag

Glee's bad

She's mad about the games in her mind

The things she will say and the things she will find

Will keep pressing play and keep pressing rewind

Stuck in a loop may grind, yo but it's fine

Cos it's a new day in the city

A welcoming committee

For the pretty and the gritty

Here kitty looking so witty

Come and get heavy and come and look silly

We all in a zoo we are domesticated

Just like ya fruit but more complicated

Kinda overrated, underestimated

Interrelated now the loves translatedThe sky is foreverI feel the press on my chest from all the stress that I'm  
getting

The chatter and clatter is getting fatter by the second

We boast the most as we approach Armageddon

The city's a pity of the infinity we getting

So I zoom out and I fall into a dream

My shadow shouts as my eyes begin to scream

But I just let go, no need to intervene

The mudders of colours combobulating into a dream

Now I, find my self upon a whole new level

Solid is a sound and a liquid is the treble

My mind is the truth and my body is the vessel

I'm totally at one no need to be a rebel

I just lay back and shut my eyes

Excuse me while I kiss the sky

Let me fly, into your mind and improvise

So I can ride upon a melody and harmonise
