Bright, Blue Tango

Captain Beyond

Baby, dance your bright blue tango in a mystifying suite
Go bumping into strangers, go soaring into the street
They all know it's wrong, it's just for you to try and make them see it, Baby
If they want to lead us, ask each man if he's the one to be
Dance your bright blue tango... let them seeWatch the paraded about sail craft go zipping through the multi-color stratosphere... dead right boy
Ultra-lucent magnetism... perennial hand of time
Honey let me take you there... so to the other reaches we got to go
Dance your bright blue tango just for me... Honey, let them seeOoo, there's something wrong
Take me to the sunny day
Can't hold on too long
Destiny is in my wayDance the bright blue tango... make me jump and shoutDance your bright blue tango... make me jump and shout
Dance your bright blue tango... make me jump and shout
Dance your bright blue tango... make me jump and shout
Dance your bright blue tango... make me jump and shout
Dance your bright blue tango... make me jump and shout
