

Sympathetic Noose

Black Rebel Motorcycle Club

I got a feeling I can't lose
I got a sympathetic noose
But I don't know how to be grateful
Yeah, I don't know how you're thankful I got a feeling I can't lose
I got a sympathetic noose
'Cos you don't know how to lean on
Yeah, I don't know how to be freed from You gotta keep your head up
You gotta let yourself get through
And all you'll ever dream
Makes you want to hide
Least all your expectations
Feel the hole inside And all you'll ever dream
Makes you want to hide
Least all your expectations
Feel the hole inside I got a feeling in my boots
I gotta make some sense to you
'Cos I don't know how to be careful
Yeah, I don't know how to be there for I got a feeling I can't prove
I got a sympathetic noose
'Cos I don't know how you're grateful
Yeah, I don't know how to be thankful You gotta keep your head up
You gotta let yourself get through
That's all you'll ever dream
Makes you want to hide
Least all your expectations
Feel the hole inside And all you'll ever dream
It makes you want to hide
Least all your expectations
Feel the hole inside
