Alpha Female

Chanee'

She's lost
(Words mean nothing)
She's lost, she's lost
(Words mean nothing)
She's lostShe didn't want to conquer you
Another misconception
It tasted strange, she can't explain
But it's all forgotten now
Her fingerprints are on your hands
That's all she's left for you
You just untangled all her words
They're inexpensive nowShe's lost
(Words mean nothing)
She's lost, she's lost
(Words mean nothing)
She's lostYou walked the world
It's almost over now
You satellite escape each day
You've got an alpha female muse
A little introspection
She isn't there to be misused
The shallowest reflectionShe's lost
(Words mean nothing)
She's lost, she's lost
(Words mean nothing)
She's lostShe's lost
(Words mean nothing)
She's lost, she's lost
(Words mean nothing)
She's lost
