## Monaco

Why can't you see  
That this is how our love was meant to be?  
I'll never understand why you are putting me down  
Ruining everything And when I'm looking into your eyes  
I see someone I've grown to despise  
There isn't any point in me hanging around  
Living the life I live I told you once but you misunderstood  
I never gave up though I did all I could  
I can't believe what you're putting me through  
I did all I had to do Just when it's out of reach  
Everybody needs to love  
But that's how it's got to be  
What everybody wants is love Don't turn your back on me  
Everybody's needs to love  
That's how it's got to be  
It's too late now and you've got to be free Hard to believe  
The way you always try and deceive  
There isn't any point in me hanging around  
I'm sick of the way I feel Am I the only one who regrets  
The things you always try to forget  
Why is it always life ends up dragging you down  
Coloring everything I told you once but you misunderstood  
I never gave up though I did all I could  
I can't believe what you're putting me through  
I did all I had to do Just when it's out of reach  
Everybody needs to love  
But that's how it's got to be  
What everybody wants is love Don't turn your back on me  
Everybody needs to love  
That's how it's got to be  
It's too late now and you've got to be free Just when it's out of reach  
Everybody needs to love  
But that's how it's got to be  
What everybody wants is love Don't turn your back on me  
Everybody needs to love  
That's how it's got to be  
It's too late now and you've got to be free Just when it's out of reach  
Everybody needs to love  
But that's how it's got to be

What everybody wants is love  
Don't turn your back on me  
Everybody needs to love  
That's how it's got to be  
It's too late now and you've got to be free
