

What Must I Do

Kenny Lattimore

Found a crack that's been breaking our foundation bout 4-5 weeks or so
Seems like the loves been escaping through the panes of our windows
Now I'm questioning if these walls around us can't keep up a happy home
But I'm a handy man and my plan is to fix it before I go(What must I do)
Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

'Fore this house comes tumbling down, girl our love's in danger
(What must I do)

Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

It can only make us stronger baby, if we don't let it break us Found a leak in the roof and it seems like it came
from a thunderstorm

Now it's dripping from the ceiling girl and it's messing up our floorboards
If we don't fix what we can, we should plan to be sleeping on the front porch
But I'm a handy man and my plan is to fix it before I go(What must I do)
Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

'Fore this house comes tumbling down, girl our love's in danger
(What must I do)

Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

It can only make us stronger baby, if we don't let it break us I won't let another day go by where we don't try
We can't ignore these problems in our house

If you think it's worth fixing babe
Then I really wanna fix it baby
No matter how long it takes

We can rebuild it(What must I do)

Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

'Fore this house comes tumbling down, girl our love's in danger
(What must I do)

Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

It can only make us stronger baby, if we don't let it break us(What must I do)
Can you feel, I wanna heal, wanna build, wanna fix what's broke baby
(What must I do)

'Fore this house comes tumbling down, girl our love's in danger
(What must I do)

Can you feel, I wanna heal, wanna build, wanna fix what's broke baby

(What must I do)

It can only make us stronger baby, if we don't let it break us What can I, what can I do

What can I, what I do for you

What can I, what can I do for you

What can I, what can I do for you
