Lost Time

Technimatic

I never said that it was mine
I was just holding it
If i was lonely all this time
Well, i didn't know it
And if i tried too hard
I'd probably blow it
The rest is just a guessIf it's all just luck
It was tough enough
If we lost some time
Then we'll make it up, upI never said that it was time
I was just hoping it
If i was always on your mind
Well, you didn't show it
But when i'd shut my eyes
You'd always know it
The rest could be the bestAnd if it's all just luck
It was tough enough
If we lost some time
Then we'll make it up, upAnd a heart that grieves
Gets lost in everything
And a heart in need
Finds hope in anythingIf it's all just luck
It was tough enough
And if we lost some time
Then we'll make it up, up
If we lost some time
Then we'll make it up, up
We lost some time
Now we're making it up, up
