

# Heartbeats Accelerating

**Linda Ronstadt**

Love, love, where can you be?  
Are you out there looking for me?  
Love, love, where can you be? Love, I am waiting, heartbeats accelerating Will you come when all is still?  
From the river or the hill  
Love, love, where can you be? Love, I am waiting, heartbeats accelerating Will you come on a Saturday night?  
Maybe then the time will be right  
Love, love, where can you be? Love, I am waiting, heartbeats accelerating When you steal into my room  
What earthly body will you assume  
Love, love, where can you be? Love, I am waiting, heartbeats accelerating Will you come on a Saturday night?  
Maybe then the time will be right  
Love, love, where can you be? Love, I am waiting, heartbeats accelerating Love, love, where can you be?  
Are you out there looking for me?  
Love, love, where can you be  
Are you out there looking for me? Love, I am waiting, heartbeats accelerating  
Love, I am waiting, heartbeats accelerating
