I done been around tha world
And everywhere be tha same song
Niggaz struggle daily gotta survive
It's worldwide, even niggaz in Paris and London be hustlin' Doin' whatever jus to get tha money
Lookin' at the whole world flooded with thugs but you got to keep it
Real if you want to make it through to live gotta get in it to win it
And that's real really, my thugs feel me put your fists in the air yeah Niggas comin' to the war and I'mma meet

Ready to rumble, I swear, we coming from everywhere
Where my thugs at, where they at?
Fuck that Nigga let's do in da enemy now, terminate 'em eliminate 'em
Takin' out our frustration on the world get 'em back for the Playa Hation
So come on we gotta roll and wouldn't you know
They ain't ready for the war Rob tha rich take some

 You don't really want to get involved wit da murder
 But shit if ya want it we got it, we bringing it!
