

Skeptic (LP Version)

Chevelle

Keep my pair of senses,
Out of where it isn't clear,
Kept his false creation,
Teach on my own faith Right, I'll wreck this, too
But you made my day
I'll fail you, too
Speak through this voice, and
We can have life to take
To mend these ways
We don't need tradition
This will wreck out mission [Chorus]
This isn't even clear
It doesn't tell the why
This is an incomplete
It doesn't tell the why Even if I was all knowing
Wouldn't it mean that I loved you?
See you move against ignorance
Why not try and get in [Chorus] Set out a boom and line,
what have scholars caught
Look to yourself to find a God,
No, a lie, and
We can have life to take,
to mend these ways
We don't need tradition,
this will wreck out mission [Chorus] This isn't even clear
It doesn't tell the why
