

I'll Be Your Sister

Motörhead

I'll be your sister, be your lover, yeah
Be your mother, if you need somebody
If you need someone to love
I'm the one you should be thinking of
If you need somebody, I'm your hand in glove
Hand in glove I'll be your lover, be your sister, yeah
I'll be your mother, if you need somebody
If you need, you're feeling tired
Need someone to set your heart on fire
It's so lonely hanging on the wire
On the wire, stand up I'll be your lover, be your sister maybe
I'll be your mother, if you need it baby
If you think that it's the end
I'm gonna prove I can come back again
If you need somebody, I'm your only friend
Only friend
