

# Keep My Head High

## Echo Movement

When the world's got me stressed, agony of defeat  
And I'm working so damn hard just to make ends meet  
My soul is strolling down a one-way dead-end street  
But I just gotta keep my head high

I say "ohh, I know that I'm gonna get by"  
Ohh, I just gotta keep my head high

I gotta live today or I'll die trying  
In the game of being a man there ain't no crying  
I'll keep it to myself when my mind's sighing  
But I still gotta show my head's high

[chorus]

It's hard to keep my cool when my world's on fire  
On the hill I am the fool, light my funeral pyre  
My mind will always duel with my soul's desire  
So I guess I gotta keep my head higher
