Runnin' Round This World

Jefferson Airplane

We've been runnin' round this world too much, girl
Trying not to see but now we're free of them
I understand what I understood before
But loving you has made me understand much moreIs it the music in your heart I love so much
Is it the rainbows of your smile I love to touch
There are red flowers in each kiss upon your lips
The times I've spent with you have been fantastic tripsWell, I've seen you in a thousand dreams
Many, many days
Without your love around
I'm gonna lose my way and you'll lose yours
You know what's happening you can't sleep or think now
Shadows they are lifted off of you
We can walk and love where we want toWell, I've seen you in a thousand dreams
Many, many days
Without your love around
I'm gonna lose my way and you'll lose yours
You know what's happening you can't sleep or think now
Shadows they are lifted off of you
We can walk and love where we want to
