

Don't Let This Win Over You

Set Your Goals

DON'T LET THIS WIN OVER YOU

This life will stress the best of you.

The rest of your has got to take control.

The only thing left to accept is to not except a hand from anyone.

So what are you going to do now?

DON'T LET THIS WIN OVER YOU

You're searching, reaching out.

Theres not enough to get you through.

DON'T LET THIS WIN OVER YOU

No turning back. You've got to take this

You must face this alone
