

# Stormy Woman Salty Girl

**Jason Collett**

Stormy woman salty girl  
You were the sunshine of the world  
It was a good idea  
To fall down here

Stormy woman what's troublin' you now  
You're breakin' up the sky  
It was a good idea  
To fall down here

Stormy woman come dry your eyes  
I will speak the love I feel tonight  
It was a good idea  
To fall down here

Stormy woman borrowing time  
What's been broken is never far behind  
Stormy woman caught in the undertow  
Beside the true blue notes  
It was a good idea  
To fall down here

Stormy woman salty girl  
Stormy woman salty girl  
Stormy woman salty girl
