

She

Babyface

First time I saw her it was heaven, yes
Prettiest thing I'd ever seen
I knew from that moment she was the only girl, I love her
That's when she gave her heart to me
She belongs to you and me
She's the angel in our dreams
Thank you lucky stars, she fell in love with me, yes
Were not for her, you and I would never be
Sometime in December was the day you were conceived
We were as close as close could be, yeah, yes
Now you cant remember but the day that you were born
You were even closer than me, yeah
She belongs to you and me
She's the angel in our dreams
Thank you lucky stars, she fell in love with me, yeah

Were not for her, you and I would never be, oh no
God only knows how much she loves you, oh
Well I've just as much as she, yes I do
Boy I only hope when you grow up you'll find a woman
That will love you like your mother has loved me, yeah
She belongs to you and me
She's the angel in our dreams
Thank you lucky stars, she fell in love with me, oh
Were not for her, you and I would
She belongs to you and me
She's the angel in our dreams
Thank you lucky stars, she fell in love with me, oh
Were not for her, you and I would, yeah never be
