Everything To Lose

The Remingtons

I wish I had a wad of cash
I'd throw it in a hat and take a cab
And I'd roll all the way to you, yeah
And if I could I would get there fast
Because I want this feeling to last
I think I'm in love with you, yeah, you
Oh, it's a beautiful thing
How you always try to make every little thing alright
Oh, I am watching you be everything you are to me
And it tells me, "Hold on tight"
I've got everything, everything
I've got everything for you
Oh, I've got everything, everything
I've got everything to lose
Oh, I've got everything, everything to lose
I wish I had a four leaf clover
I could wish that this would never be over
I don't wanna be away from you, yeah, you
And all my thoughts are lost in the dark
But I know they won't get very far
I'm in love with you, yeah you
Oh, it's a beautiful thing
How you always try to make every little thing alright
And oh, I am watching you be everything you are to me
And it tells me, "Hold on tight"
I've got everything, everything
I've got everything for you
Oh, I've got everything, everything
I've got everything to lose
Oh, I've got everything, everything to lose
And if I had a wad of cash
I'd throw it in a hat and take a cab
And I'd roll all the way to you
I've got everything, everything
I've got everything for you
Oh, I've got everything, everything
I've got everything to lose
Oh, I've got everything, everything to lose
