

Ultimatums For Egos

From First to Last

The last thing that I wanted was your company, but still you came running back here anyway.

And the truth is that I'll never tell you anything
because every time I try my words come out and kill me quick.

Crush my dreams I'll fade away.

Crush my dreams I'll fade away.

As long as what you wanted was for me to be miserable,
I'm breaking down ,everyday, the sky has a new shade of grey.

Trying to say you're sorry when these were your intentions; cant take back what you've said.

I'll never forgive, I'll never forget(cross my heart)

The last thing that I needed was your sympathy, but you still showed it to me anyway.

You live for your excuses, and you should know by now
that every time you try your words come out and kill you quick.

Crush my dreams I'll fade away.

Crush my dreams I'll fade away.

As long as what you wanted was for me to be miserable,
I'm breaking down everyday, the sky has a new shade of grey.

Trying to say your sorry when these were your intentions; can't take back what you've said.

I'll never forgive, (I'll never)

Why don't you throw away everything to gain nothing at all
but one less person who cares if you end up dead....I'll just forget
