

# Why Took Your Advice

## Grandaddy

I took your advice  
And turned my cable off  
You said you'd do it too  
How come you never call?

I took your advice  
And fixed my radio  
But I can't find anything  
That sounds good anymore

I took your advice  
And bought the microscope  
But I can't find anything

I wanna see up close  
Why took your advice ?
