I'll Never Hold You Back (Instrumental)

Got A Girl

When the clouds rolls in
And when the light grows dim
I see reflections of you fade into the sunsets of my mindAs the cold sets in
I hear your voice from within
And though you're everywhere I turn you know I can't see clearlyBaby, what happened
Is this all we have left
Baby, I love you
But love is all I have leftTake what you can from me
Take what you need from me
I'll never hold you back, or
Close to me
Take what you can from me
Take what you need from me
I'll never hold you back, or
Set you freeYou wanna go away
Why don't you go away
I'll take the ride but you can never change the state of mind I'm inBaby, what happened
Is this all we have left
Baby, I love you
But love is all I have leftTake what you can from me
Take what you need from me
I'll never hold you back, or
Close to me
Take what you can from me
Take what you need from me
I'll never hold you back, or
Set you freeWhen the clouds roll in
And when the light grows dim
I see reflections of you fade into the sunsets of my mind
When I think about us
I think of what once was
There was a time inside my mind when I could see things clearlyBaby, what happened
Is this all we have left
Baby, I love you
But love is all I have leftTake what you can from me
Take what you need from me
I'll never hold you back, or
Close to me
Take what you can from me

Take what you need from me
I'll never hold you back, or
Set you free
